

## Game Testers

Playwize plc currently needs a number of bright, enthusiastic and energetic individuals to work closely with our development team assisting them with all aspects of a project's bug testing and beta testing cycle.

This is a fixed term contract position suitable for candidates looking to get started within the gaming industry.

The successful applicant should have the following abilities:

- Organised with the ability to follow a test plan and track bug fixing status
- A working knowledge of Microsoft Office products and database entry. The ability to work well on their own and in a team.
- An interest for poker and online gaming would be to the candidate's advantage.
