

11th April 2001

PRESS RELEASE

Trading Update

Bits Corp Plc ('Bits Corp' or 'the Company'), a leading UK developer of video games software for major console platforms, will be releasing its Preliminary Results in June 2001.

Trading for the year ended 31 March 2001 was satisfactory and in line with current market expectations. In addition the Company is pleased to announce today its collaboration with Sun Microsystems to define a new Java™ based standard for electronic gaming and reports a net cash position in excess £1.9m.

Bits Corp Plc is an AIM listed games developer with three key areas: Video Games; Amber Technology and Games Magnet. The video games development is focused on Next Generation consoles. Amber Technology is a proprietary technology that allows a browser to navigate through the Internet in 3D format and Games Magnet is a fusion of the former two for 3D games on the Internet.
