

Playwize PLC  
02 October 2006

2 OCTOBER 2006

PLAYWIZE PLC  
('Playwize' or the 'Company')

US Legislation

The Board of Playwize notes the decision by Congress in the USA to enact the Unlawful Internet Gambling Enforcement Act 2006.

The Board wishes to emphasise that the launch of its Pokerwize product is focused on the UK and European markets. Pokerwize has not been actively marketed in the USA and, in the light of forthcoming legislation, the Board does not envisage doing so.

The Board believes that there is considerable scope for growth within the European market and continues to implement its planned marketing strategy for the roll out of the Company's Pokerwize product.
